PEPTIDES

VOLUME 4 NUMBER 1 JANUARY/FEBRUARY 1983

CONTENTS

Cholecystokinin and bombesin effects on rewarded and nonrewarded operants. HSIAO, S. and D. DEUPREE 1

Absorption of α-MSH from subcutaneous and intraperitoneal sites in the rat. WRIGHT, A. and J. F. WILSON 5

Can ACTH analogs support discriminative learning in rats? SCHECHTER, M. D., J. T. CONCANNON, R. E. MALONEY, JR. and L. BELLUSH 11

Continuous infusion of cholecystokinin and meal pattern in the rat. HSIAO, S. and C. H. WANG 15

Shuttlebox avoidance in rhesus monkeys: Effects on plasma cortisol and β-endorphin. SCALLET, A. C., D. R. RUSH, N. H. KALIN, S. C. RISCH, S. J. SUOMI and T. ZAAS ... 19

Mechanism of degration of LH-RH and neurotensin by synaptosomal peptidases. McDERMOTT, J. R., A. I. SMITH, P. R. DODD, J. A. HARDY and J. A. EDWARDSON 25

Substance P and antinociception. HALL, M. E. and J. M. STEWART 31

Vasopressin analog delays extinction of classically conditioned bradycardia. HERNÁNDEZ, L. L. and D. A. POWELL 37

Neurotensin interacts with dopaminergic neurons in rat striatum. RECHES, A., R. E. BURKE, D. JIANG, H. R. WAGNER and S. FAHN 43

Modulation of cholinergic neurotransmitter release from myenteric plexus by somatostatin. YAU, W. M., P. F. LINGLE and M. L. YOUTHER 49

Central and peripheral components of dermorphin's effect on rat intestinal propulsion in comparison to morphine. PAROLARO, D., M. SALA, G. CREMA, L. SPAZZI, R. CESANA and E. GORI 55

Activation of angiotensin II receptors in brain potentiates the stimulating effect of endogenous opioid neurons on central sympathetic outflow. APPEL, N. M. and G. R. VAN LOON 59

Calcitonin—C.N.S. action to control the pattern of intestinal motility in rats. BUENO, L., J. FIORAMONTI and J. P. FERRE 63

Tolerance to the anti-avoidance properties of cholecystokinin-octapeptide. COHEN, S. L., M. KNIGHT, C. A. TAMMINGA and T. N. CHASE 67

Cholecystokinin octa- and tetrapeptide degradation by synaptic membranes. II. Solubilization and separation of membrane-bound CCK-8 cleaving enzymes. DESCHODT-LANCKMAN, M., N. D. BUI, D. KOULISCHER, P. PAROUTAUD and A. D. STROSBERG 71

Relationship between plasma concentrations of immunoreactive beta-endorphin and food intake in rats. DAVIS, J. M., M. T. LOWY, G. K. W. YIM, D. R. LAMB and P. V. MALVEN . 79

Action of anorexigenic peptide injected into the brain: Dissociation of effect on body weight and feeding in the rat. MYERS, R. D., J. R. HEPLER and W. HOLAHAN 85

Specific binding to adrenal particulate fraction of cyclo(Histidyl-Proline), a TRH metabolite. BATTAINI, F., Y. KOCH, Y. TAKAHARA and A. PETERKOFSKY 89

Arginine vasotocin induces sexual behavior of newts by acting on cells in the brain. MOORE, F. L. and L. J. MILLER 97

Feeding and drinking responses in the golden hamster following treatment with cholecystokinen and angiotensin II. MICELI, M. O. and C. W. MALSBURY 103

In vitro pituitary hormone releasing activity of 40 residue human pancreatic tumor growth hormone releasing factor. ARIMURA, A., M. D. CULLER, C. M. TURKELSON, M. G. LUCIANO, C. R. THOMAS, N. OBARA, K. GROOT, J. RIVIER and W. VALE 107

Radioimmunoassay for Lys^8, Asn^9, neurotensin 8–13: Tissue and subcellular distribution of immunoreactivity in chickens. CARRAWAY, R. E., S. E. RUANE and R. S. RITSEMA 111

$ACTH_{1-39}$ but not naltrexone produces biphasic effects on locomotor activity. BLAIR, R., Z. H. GALINA, C. SUTHERLAND and Z. AMIT 117

BRIEF COMMUNICATIONS

Enkephalin-containing polypeptide levels in normal tensive and SHR rat adrenal glands. DEWALD, D. and R. V. LEWIS 121

Endogenous opioid peptide effects on the guinea-pig biliary tract. OOUCHI, M., H. ASAOKA, T. MITSUTAKE and M. MIYAGAWA 125

PEPTIDES

VOLUME 4 NUMBER 2 MARCH/APRIL 1983

CONTENTS

Multiplicity of receptors for vasoactive intestinal polypeptide (VIP): Differential effects of apamin on binding in brain, uterus and liver.
FAHRENKRUG, J., S. GAMMELTOFT, P. STAUN-OLSEN, B. OTTESEN and A. SJÖQUIST 133

The use of a steric (Y_γ) in QSAR calculations for peptide hormones.
NÁDASDI, L. and K. MEDZIHRADSZKY 137

Alpha-melanocyte stimulating hormone facilitates learning of visual but not auditory discriminations.
HANDELMANN, G. E., T. L. O'DONOHUE, D. FORRESTER and W. COOK 145

The role of N-acyl groups in the inhibitory activity of LH-RH-analogues.
MEZÖ, I., J. SEPRÓDI, J. ÉRCHEGYI, I. TEPLÁN, M. KOVÁCS and B. FLERKÓ 149

Effect of synthetic porcine gastrin-releasing peptide on plasma levels of immunoreactive cholecystokinin pancreatic polypeptide and gastrin in dogs.
INOUE, K., D. McKAY, H. YAJIMA and P. L. RAYFORD 153

Acute abdominal vagotomy reduces drinking to peripheral but not central angiotensin II.
SIMANSKY, K. J. and G. P. SMITH 159

Activation of vasopressinergic and oxytocinergic neurons during aging in the Wistar rat.
FLIERS, E. and D. F. SWAAB 165

Mechanism of the cardiovascular response to systemic intravenous administration of leucine-enkephalin in the conscious dog.
GILES, T. D. and G. E. SANDER 171

Effects of Thyrotropin-releasing hormone (TRH) and MK-771 on schedule-controlled behavior of squirrel monkeys, rabbits and pigeons.
BARRETT, J. E. 177

Circadian effect of ACTH 1–17 on mitotic index of the corneal epithelium of BALB/C mice.
SCHEVING, L. E., T. H. TSAI, J. E. PAULY and F. HALBERG 183

***des*-(1–13) Human β-endorphin interacts with calmodulin.**
PUETT, D., D. P. GIEDROC, S. TOLLEFSON and N. LING 191

Intracerebroventricular and septal injections of arginine vasopressin are not antipyretic in the rabbit.
BERNARDINI, G. L., J. M. LIPTON and W. G. CLARK 195

α-MSH injected into the septal region reduces fever in rabbits.
GLYN-BALLINGER, J. R., G. L. BERNARDINI and J. M. LIPTON 199

Effect of opiate-active substances on pancreatic polypeptide levels in dogs.
SCHUSDZIARRA, V., R. SCHICK, A. HOLLAND, A. DE LA FUENTE, J. SPECHT, V. MAIER, V. BRANTL and E. F. PFEIFFER 205

Associated endocrine, physiological and behavioral changes in rhesus monkeys after intravenous corticotropin-releasing factor administration.
KALIN, N. H., S. E. SHELTON, G. W. KRAEMER and W. T. McKINNEY 211

Contents continued

Corticotropin-releasing factor administered intraventricularly to rhesus monkeys.
KALIN, N. H., S. E. SHELTON, G. W. KRAEMER and W. T. McKINNEY 217

Effects of synthetic ovine CRF on ACTH, cortisol and blood pressure in sheep.
KALIN, N. H., J. C. GONDER and S. E. SHELTON 221

Dynorphins and leu-enkephalin in brain nuclei and pituitary of WKY and SHR rats.
FEUERSTEIN, G., C. J. MOLINEAUX, J. G. ROSENBERGER, A. I. FADEN and B. M. COX 225

The coexistence and release of bovine pancreatic polypeptide-like immunoreactivity from noradrenergic superior cervical ganglia neurons.
OLSCHOWKA, J. A. and D. M. JACOBOWITZ 231

Comparison of the effects of TRH and D-Ala2-metenkephalinamide on hippocampal electrical activity and behavior in the unanesthetized rat.
DRUST, E. G. and I. L. CRAWFORD 239

Pancreatic polypeptide-like material in nerves and endocrine cells of the rat.
TAYLOR, I. L. and C. R. VAILLANT 245

Barbiturate competition for TRH receptors in mouse brain: Neuromodulation of anesthesia.
HIRSCH, M. D. 255

BRIEF COMMUNICATIONS

Vasopressin potentiates the stimulation of cyclic AMP accumulation by norepinephrine.
CHURCH, A. C. 261

Intraventricular administration of antivasopressin serum inhibits retention in mice.
LECCESE, A. P. and J. L. ISENHOUR 265

ANNOUNCEMENTS 269

PEPTIDES

VOLUME 4 NUMBER 3 MAY/JUNE 1983

CONTENTS

Studies on β-endorphin and membrane-bound calcium interaction using chlorotetracycline (CTC) as a fluorescence probe.
CHAKRABARTI, A. K., T. K. CHATTERJEE and J. J. GHOSH 273

Central effects of neuropeptides on ventilation in the rat.
NIEWOEHNER, D. E., A. S. LEVINE and J. E. MORLEY 277

Effects of deprolorphin, a casomorphin analog, on hippocampal CA1 field potentials in vitro.
REYMANN, K. G., A. N. CHEPKOVA and H. MATTHIES 283

Feeding induced by opiates injected into the paraventricular hypothalamus.
McLEAN, S. and B. G. HOEBEL 287

Intracerebroventricular somatostatin attenuates electroconvulsive shock-induced amnesia in rats.
VÉCSEI, L., I. BOLLÓK and G. TELEGDY 293

Rapid clinical effectiveness of MIF-I in the treatment of major depressive illness.
VAN DER VELDE, C. D. 297

Effect of 41-CRF antiserum on the secretion of ACTH, B-Endorphin and α-MSH in the rat.
CONTE-DEVOLX, B., M. REY, F. BOUDOURESQUE, P. GIRAUD, E. CASTANAS, Y. MILLET, J. L. CODACCIONI and C. OLIVER 301

Circadian variation of β-endorphin-like immunoreactivity in neurointermediate pituitary.
GIBSON, M. J., G. J. COLURSO, L. APPLEBAUM and D. T. KRIEGER 305

Changes in thyrotropin-releasing hormone levels in alligator stomach during fasting.
BOLAFFI, J. L., V. LANCE and I. M. D. JACKSON 311

Centrally administered N-terminal fragments of ACTH (1–10, 4–10, 4–9) display convulsant properties in rabbits.
TARTARA, A., P. BO, M. MAURELLI and F. SAVOLDI 315

Isolation from porcine antral mucosa of a hexapeptide corresponding to the C-terminal sequence of gastrin.
GREGORY, R. A., G. J. DOCKRAY, J. R. REEVE, JR., J. E. SHIVELY and C. MILLER 319

Hyperthermic action of somatostatin-28.
WAKABAYASHI, I., Y. TONEGAWA and T. SHIBASAKI 325

Extra-hippocampal projections of CCK neurons of the hippocampus and subiculum.
HANDELMANN, G. E., M. C. BEINFELD, T. L. O'DONOHUE, J. B. NELSON and D. E. BRENNEMAN 331

Characterization of ^{3}H-AVP binding sites in particulate preparations of rat brain.
PEARLMUTTER, A. F., M. G. COSTANTINI and B. LOESER 335

Contents continued

The application of an improved solid phase synthetic technique to the delineation of an antigenic site of apolipoprotein A-II.
BHATNAGAR, P. K., S. J. T. MAO, A. M. GOTTO, JR. and J. T. SPARROW 343

Pharmacological manipulation of sincalide (CCK-8)-induced suppression of feeding.
WILSON, M. C., D. DENSON, J. A. BEDFORD and R. N. HUNSINGER 351

Effect of chronic vasopressin treatment on alcohol drinking of Brattleboro HZ and DI rats.
MYERS, R. D., E. C. CRITCHER and N. N. CORNWELL 359

Isolation and amino acid sequence of two urotensin II peptides from *Catostomus Commersoni* urophyses.
McMASTER, D. and K. LEDERIS 367

Cholinergic role on release and action of motilin.
LEE, K. Y., H. J. PARK, T.-M. CHANG and W. Y. CHEY 375

The effects of pancreatic polypeptides and neuropeptide Y on the rat vas deferens.
OHHASHI, T. and D. M. JACOBOWITZ 381

Neuropeptides in the female genital tract: Effect on vascular and non-vascular smooth muscle.
OTTESEN, B., B. R. GRAM and J. FAHRENKRUG 387

BRIEF COMMUNICATION

des-Tyr^1-γ-Endorphin and haloperidol increase pineal gland melatonin levels in rats.
GAFFORI, O., M. GEFFARD and J. M. VAN REE 393

ANNOUNCEMENTS 397

PEPTIDES

VOLUME 4 NUMBER 4 JULY/AUGUST 1983

CONTENTS

L-prolyl-L-arginyl-glycineamide induces memory enhancement in chicks.
DAVIS, J. L., R. M. PICO and A. CHERKIN 401

Divergent effects of cholecystokinin, bombesin, and lithium on rat exploratory behaviors.
CRAWLEY, J. N. 405

Oxytocin as well as vasopressin potentiate ovine CRF *in vitro*.
ANTONI, F. A., M. C. HOLMES and M. T. JONES 411

Influence of dipeptides on precipitated morphine withdrawal in the mouse.
KOVÁCS, G. L., L. SZONTÁGH, L. BALÁSPIRI and G. TELEGDY 417

Hyperreflexive behavior in Brattleboro rats.
WARREN, P. H. and D. M. GASH 421

Synthesis and biological activity of [D-Trp^6] chicken luteinizing hormone-releasing hormone.
MILLAR, R. P. and J. A. KING 425

An investigation of N-terminal pro-opiocortin peptides in the rat pituitary.
JACKSON, S., P. SALACINSKI, J. HOPE and P. J. LOWRY 431

Does motilin control interdigestive pepsin secretion in the dog?
NAKAYA, M., T. SUZUKI, H. ARAI, K. WAKABAYASHI and Z. ITOH 439

Peptide E and other proenkephalin-derived peptides are potent kappa opiate receptor agonists.
QUIRION, R. and A. S. WEISS 445

The substance P content of peripheral tissues in several mammals.
BUCSICS, A., P. HOLZER and F. LEMBECK 451

Is caerulein amphibian CCK?
DIMALINE, R. 457

Thymosin α_1-like peptides:
Localization and biochemical characterization in the rat brain and pituitary gland.
PALASZYNSKI, E. W., T. W. MOODY, T. L. O'DONOHUE and A. L. GOLDSTEIN 463

Different patterns of central and peripheral βEP, βLPH and ACTH throughout life.
FACCHINETTI, F., F. PETRAGLIA, G. NAPPI, E. MARTIGNONI, G. ANTONI, D. PARRINI and A. R. GENAZZANI 469

"Joining peptide" of pro-opiomelanocortin. I. Radioimmunoassay and extraction of related peptides from pituitary glands.
ERISMAN, M. D., L. H. LAZARUS, G. D. JAHNKE, C. M. SOLDATO and R. P. DIAUGUSTINE 475

"Joining peptide" of pro-opiomelanocortin. II. Interspecies heterogeneity of the joining peptide fragment.
JAHNKE, G. D., C. M. SOLDATO, M. D. ERISMAN, R. P. DIAUGUSTINE and L. H. LAZARUS 483

Contents continued

Neurotensin: Effects of hypothalamic and intravenous injections on eating and drinking in rats.
STANLEY, B. G., B. G. HOEBEL and S. F. LEIBOWITZ 493

Plasma cortisol and beta-endorphin in horses subjected to electro-acupuncture for cutaneous analgesia.
BOSSUT, D. F. B., L. S. LESHIN, M. W. STROMBERG and P. V. MALVEN 501

Presence of vasopressin, oxytocin and neurophysin in the retina of mammals, effect of light and darkness, comparison with the neuropeptide content of the neurohypophysis and the pineal gland.
GAUQUELIN, G., G. GEELEN, F. LOUIS, A. M. ALLEVARD, C. MEUNIER, G. CUISINAUD, S. BENJANET, N. G. SEIDAH, M. CHRETIEN, J. J. LEGROS and C. GHARIB 509

Antinociceptive action of intrathecal neurotensin in mice.
HYLDEN, J. L. K. and G. L. WILCOX 517

Localization of GRF-like immunoreactive neurons in the rat brain.
JACOBOWITZ, D. M., H. SCHULTE, G. P. CHROUSOS and D. L. LORIAUX 521

Organization and interrelationship of neuropeptides in the central amygdaloid nucleus of the rat.
WRAY, S. and G. E. HOFFMAN 525

Evidence that (Glu^4)-neurotensin is the naturally occurring neurotensin in plasma.
THEODORSSON-NORHEIM, E. 543

Cytochemical characterization of pituitary target cells for biotinylated gonadotropin releasing hormone.
CHILDS (MORIARTY), G. V., Z. NAOR, E. HAZUM, R. TIBOLT, K. N. WESTLUND and M. B. HANCOCK 549

Somatostatin fibers and their relationship to specific cell types (GH and TSH) in the rat anterior pituitary.
WESTLUND, K. N., S. CHMIELOWIEC and G. V. CHILDS 557

Endogenous opiates: 1982.
OLSON, G. A., R. D. OLSON and A. J. KASTIN 563

Antinociceptive, prolactin releasing and intestinal motility inhibiting activities of dermorphin and analogues after subcutaneous administration in the rat.
ROSSI, A., E. DI SALLE, G. BRIATICO, G. ARCARI, R. DE CASTIGLIONE and G. PERSEO 577

BRIEF COMMUNICATIONS

Indomethacin alters the effects of substance-P and VIP on isolated airway smooth muscle.
REGAL, J. F. and D. E. JOHNSON 581

Failure of gel filtration and HPLC purification to increase levels of immunoreactive TRH in rat brain extracts.
COURT, J. A., A. I. SMITH, J. R. McDERMOTT, J. A. BIGGINS and J. A. EDWARDSON 585

ANNOUNCEMENTS 589

PEPTIDES

VOLUME 4 NUMBER 5 SEPTEMBER/OCTOBER 1983

CONTENTS

Introduction 593

Opioid regulation of CNS dopaminergic pathways: A review of methodology, receptor types, regional variations and species differences.
WOOD, P. L. 595

The actions of opiates in the rat substantia nigra: An electrophysiological analysis.
HOMMER, D. W. and A. PERT 603

Interactions between neurotensin and dopamine in the brain: An overview.
QUIRION, R. 609

TRH: Cardiovascular and sympathetic modulation in brain nuclei of the rat.
FEUERSTEIN, G., A. H. HASSEN and A. I. FADEN 617

Differential cardiovascular effects mediated by mu and kappa opiate receptors in hindbrain nuclei.
HASSEN, A. H., G. FEUERSTEIN and A. I. FADEN 621

Central cardiovascular effects of mammalian neurohypophyseal peptides in conscious rats.
ZERBE, R. L., S. KIRTLAND, A. I. FADEN and G. FEUERSTEIN 627

Neuropeptides in spinal cord injury: Comparative experimental models.
FADEN, A. I., T. P. JACOBS, G. P. SMITH, B. GREEN and J. A. ZIVIN ... 631

Apparent involvement of opioid peptides in stress-induced enhancement of tumor growth.
LEWIS, J. W., Y. SHAVIT, G. W. TERMAN, L. R. NELSON, R. P. GALE and J. C. LIEBESKIND 635

Enkephalin-containing polypeptides are potent inhibitors of enkephalin degradation.
HUI, K.-S., M. HUI, M. BANAY-SCHWARTZ, T. DEGUZMAN, N. LING and A. LAJTHA 639

Predominant involvement of mu- rather than delta- or kappa-opiate receptors in LH secretion.
PFEIFFER, D. G., A. PFEIFFER, Y. SHIMOHIGASHI, G. R. MERRIAM and D. L. LORIAUX 647

Regulation of opioid gene expression.
CIVELLI, O., N. BIRNBERG, M. COMB, J. DOUGLASS, J. C. LISSITZKY, M. UHLER and E. HERBERT 651

Somatostatinergic projections from the central nucleus of the amygdala to the vagal nuclei.
HIGGINS, G. A. and J. S. SCHWABER 657

The morphology of somatostatin-immunoreactive neurons in the lateral nucleus of the rat amygdala.
GRAY, T. S. 663

The effects of cysteamine and capsaicin on somatostatin and substance P in medullary nuclei.
HELKE, C. J. and J. H. SELSKY 669

Contents continued

Distribution and origin of bombesin, substance P and somatostatin in cat spinal cord.
MASSARI, V. J., Y. TIZABI, C. H. PARK, T. W. MOODY, C. J. HELKE and T. L. O'DONOHUE 673

Bombesin-like peptides and receptors in human tumor cell lines.
MOODY, T. W., V. BERTNESS and D. N. CARNEY 683

Bombesin stimulates insulin secretion and reduces food intake in the baboon.
WOODS, S. C., L. J. STEIN, D. P. FIGLEWICZ and D. PORTE, JR. 687

Bombesin-induced behavioural changes: Antagonism by neuroleptics.
MERALI, Z., S. JOHNSTON and S. ZALCMAN 693

Characterization and localization of ^{3}H-arginine^{8}-vasopressin binding to rat kidney and brain tissue.
DORSA, D. M., L. A. MAJUMDAR, F. M. PETRACCA, D. G. BASKIN and L. E. CORNETT 699

Vasopressin analog influences the performance of males on a reaction time task.
BECKWITH, B. E., D. I. COUK and T. S. TILL 707

Behavioral differences between vasopressin-deficient (Brattleboro) and normal Long-Evans Rats.
WILLIAMS, A. R., R. J. CAREY and M. MILLER 711

Effect of vasopressin on open field and activity behavior of the vasopressin-deficient (Brattleboro) rat.
WILLIAMS, A. R., R. J. CAREY and M. MILLER 717

Behavioral effects of [4-Norleucine, 7-D-Phenylalanine]-α-melanocyte-stimulating hormone.
KOBOBUN, K., T. L. O'DONOHUE, G. E. HANDELMANN, T. K. SAWYER, V. J. HRUBY and M. E. HADLEY 721

Influence of MSH and corticosterone on stimulus control over an operant response.
BECKWITH, B. E., A. RUSHING and E. A. DEKREY 725

Intracranial administration of corticotropin-like peptides increases incidence of amphibian reproductive behavior.
MILLER, L. J. and F. L. MOORE 729

Effects of TRH injection on hippocampal-hypothalamic-pituitary-thyroid interactions.
MURPHY, H. M., C. H. WIDEMAN, D. W. LONG and T. S. BROWN 735

Secretin modulation of behavioral and physiological functions in the rat.
CHARLTON, C. G., R. L. MILLER, J. N. CRAWLEY, G. E. HANDELMANN and T. L. O'DONOHUE 739

Nucleus tractus solitarius lesions block the behavioral actions of cholecystokinin.
CRAWLEY, J. N. and J. S. SCHWABER 743

CCK-8 modulation of mesolimbic dopamine: Antagonism of amphetamine-stimulated behaviors.
SCHNEIDER, L. H., J. E. ALPERT and S. D. IVERSEN 749

Characterization and visualization of cholecystokinin receptors in rat brain using [^{3}H]pentagastrin.
GAUDREAU, P., R. QUIRION, S. ST-PIERRE and C. B. PERT 755

Substance P and behavior: Opposite effects of N-terminal and C-terminal fragments.
HALL, M. E. and J. M. STEWART 763

The role of substance P-containing fibers in sympathetic ganglia: Effect of capsaicin.
WILKIN, L. D., L. O. FAGRE, J. Y. JEW and T. H. WILLIAMS 769

Hypothalamic-pituitary-adrenal regulation, neurotransmitters and affective disorders.
JANOWSKY, D. S., S. C. RISCH, L. Y. HUEY, L. L. JUDD and J. L. RAUSCH 775

Regulation of ACTH and cortisol in depression.
REUS, V. I., M. JOSEPH and M. DALLMAN 785

Muscarinic supersensitivity of anterior pituitary ACTH and B-endorphin release in major depressive illness.
RISCH, S. C., D. S. JANOWSKY and J. C. GILLIN 789

ANNOUNCEMENTS 793

PEPTIDES

VOLUME 4 NUMBER 6 NOVEMBER/DECEMBER 1983

CONTENTS

Involvement of dynorphin and the kappa opioid receptor in feeding.
MORLEY, J. E. and A. S. LEVINE 797

Thermoregulatory, behavioral and seizure modulatory effects of AVP in the gerbil.
LEE, R. J. and P. LOMAX 801

Adrenal modulation of the inhibitory effect of corticotropin releasing factor on feeding.
GOSNELL, B. A., J. E. MORLEY and A. S. LEVINE 807

MSH peptides are present in mammalian skin.
THODY, A. J., K. RIDLEY, R. J. PENNY, R. CHALMERS, C. FISHER and S. SHUSTER 813

Prolactin-releasing activity of porcine intestinal peptide (PHI-27).
SAMSON, W. K., M. D. LUMPKIN, J. K. McDONALD and S. M. McCANN 817

Proteolytic degradation of gonadotropin-releasing hormone (GnRH) by rat ovarian fractions in vitro.
BERGER, H., K. NIKOLICS, B. SZÖKE and B. MEHLIS 821

Vasopressin administration to neonatal rats reduces antidiuretic response in adult kidneys.
HANDELMANN, G. E., J. T. RUSSELL, H. GAINER, R. ZERBE and M. BAYORH 827

Peptide-induced excessive grooming in the rat: The role of opiate receptors.
ALOYO, V. J., B. SPRUIJT, H. ZWIERS and W. H. GISPEN 833

Iontophoretic mapping of corticotropin-releasing factor (CRF) sensitive neurons in the rat forebrain.
EBERLY, L. B., C. A. DUDLEY and R. L. MOSS 837

Renal function and pituitary hormone release during cerebral osmostimulation and TRH in dogs.
HUFFMAN, L. J., G. T. CAMPBELL and J. P. GILMORE 843

Involvement of hypothalamic somatostatin in glucagon-induced suppression of growth hormone secretion in conscious rats.
KATAKAMI, H., Y. KATO, N. MATSUSHITA, A. SHIMATSU and H. IMURA 849

Regional interactions of opioid peptides at μ and δ sites in rat brain.
HEWLETT, W. A. and J. D. BARCHAS 853

Actions of intracerebroventricular administration of kyotorphin and an analog on thermoregulation in the mouse.
SAKURADA, T., S. SAKURADA, S. WATANABE, H. MATSUMURA, K. KISARA, Y. AKUTSU, Y. SASAKI and K. SUZUKI 859

Changes in circadian rhythms of thermoregulation and motor activity in rats as a function of aging: Effects of d-amphetamine and α-MSH.
YEHUDA, S. and R. L. CARASSO 865

Immunoreactive peptides related to dynorphin B (=rimorphin) in the rat brain.
ZHU, Y. X., V. HÖLLT and H. LOH 871

Contents continued

Biorhythm of arginine-vasopressin in the paraventricular, supraoptic and suprachiasmatic nuclei of rats.
NOTO, T., H. HASHIMOTO, Y. DOI, T. NAKAJIMA and N. KATO 875

Evidence for the presence of immunoreactive histidyl-proline diketopiperazine [Cyclo (His-Pro)] in the adult human brain.
PARKER, C. R., JR., M. MORI, J. PEGUES, C. PRASAD and J. F. WILBER 879

A radioimmunoassay specific for [Gln⁸]LH-RH: Application in the confirmation of the structure of chicken hypothalamic luteinizing hormone-releasing hormone.
KING, J. A., C. J. TOBLER, R. W. ROESKE, W. A. DAY, J. E. RIVIER and R. P. MILLAR 883

Biosynthesis of multiple forms of β-endorphin in the reptile intermediate pituitary.
DORES, R. M. and A. SURPRENANT 889

Further characterization of the major forms of reptile beta-endorphin.
DORES, R. M. 897

Studies on bombesin-induced grooming in rats.
GMEREK, D. E. and A. COWAN 907

High concentrations of p-Glu-His-Pro-NH_2 (thyrotropin-releasing hormone) occur in rat prostate.
PEKARY, A. E., B. SHARP, J. BRIGGS, H. E. CARLSON and J. M. HERSHMAN 915

Bovine intermediate pituitary α-amidation enzyme: Preliminary characterization.
EIPPER, B. A., C. C. GLEMBOTSKI and R. E. MAINS 921

Synthetic hpGRF 1–40 stimulates growth hormone and inhibits prolactin secretion in normal children and children with isolated growth hormone deficiency.
PINTOR, C., V. FANNI, S. LOCHE, V. LOCATELLI, S. G. CELLA, F. VILLA, F. MINUTO, R. CORDA and E. E. MÜLLER 929

Effect of food-deprivation on rat pancreatic islet cells.
APONTE, G., D. GROSS, G. ROSENQUIST, V. MENDEL and T. YAMADA 935

Immunohistological detection of degenerating CRF-immunoreactive nerve fibers in the median eminence after lesion of paraventricular nucleus of the rat. A light and electron microscopic study.
LIPOSITS, Zs., I. LENGVÁRI, S. VIGH, A. V. SCHALLY and B. FLERKÓ 941

***In vivo* release of dopamine during perfusion of neurotensin in substantia nigra of the unrestrained rat.**
MYERS, R. D. and T. F. LEE 955

Biosynthesis of LHRH: Inferences from immunocytochemical studies.
KING, J. C. and E. L. P. ANTHONY 963

BRIEF COMMUNICATION

Methionine-enkephalin facilitates the cardiovascular response to epinephrine in the conscious dog.
SANDER, G. E., T. D. GILES and J. C. RICE 971

INDEX TO VOLUME 4 975
